Intensive Ventilation

Ventilation boosting performance

Grilling and frying can create a lot of smoke and strong odours, making your kitchen an unpleasant place to be. Intensive Ventilation increases maximum extraction power by 67%* and quickly gets rid of smoke and smells. After a while it automatically switches back to the previous speed setting, which is pretty handy too!

*Tested by internal laboratories

Air Cleaning Mode

Automatic hourly refreshment

After slaving away in a hot kitchen, you want to relax on the sofa, not worry about getting the cooking odours out of your kitchen. The Air Cleaning Mode automatically refreshes the air in your kitchen quietly and efficiently for ten minutes every hour. So, your kitchen will always be fresh, no matter what you've cooked.

Filter Saturation Light

Filter-cleaning reminder

Not quite sure when your hood's grease filters need cleaning? The Filter Saturation Light and buzzer tell you exactly that, so you'll always get the best performance out of your appliance.

Led Illumination

Clear view of what›s cooking

It's not always easy to see your hob clearly, especially if the hood is blocking the light. Led Illumination lights up your hob clearly so you can see exactly what's going on in your pots and pans.

STANDARD HOOD
90 CM WALL-MOUNTED HOOD

Key Features

Hood Type	Wall-mounted
Width	90 cm
Height	102.5 cm
Depth	50.5 cm
Energy Efficiency Class	A
Minimum Ventilation Noise Level	44 dBA
Maximum Ventilation Noise Level	60 dBA
Minimum Ventilation Capacity	200 m³/h
Number of Power Levels	3+1 intensive level
Colour	Black
Product Series	b300
Maximum Ventilation Capacity	430 m³/h
Hood	90 cm / T Shape

Design

Hood Type	Wall-mounted
Colour	Black
Controls	Touch control
Illumination Type	LED Illumination
Number of Light Bulbs	2
Light Bulb Power	3 W
Dimmable Lights	Available
Filter Design	Metal - Cassette (Stainless Steel)
Control Panel Design	Flat Panel
Control Panel Type	Metal + Glass

Functions

Intensive Ventilation	Available
Air-cleaning Mode	Available
Auto Shut-off	Available
Number of Power Levels	3+1 intensive level
Flape (Ducted Operation)	Available
Air Diverter (Recirculated Operation)	Optional
Fitting Kit (screws)	Available

Technologies

Carbon Filters	Available
Dishwasher-safe Filters	Available
Filter Saturation Indicator	Available
Number of Grease Filters	3

Performance & Consumption

Energy Efficiency Class	A
Minimum Ventilation Capacity	200 m³/h
Maximum Ventilation Capacity	430 m³/h
Intensive Ventilation Capacity	715 m³/h
Minimum Ventilation Noise Level	44 dBA
Maximum Ventilation Noise Level	60 dBA
Intensive Ventilation Noise Level	72 dBA
Fluid Dynamics (Motor) Efficiency Class	A
Illumination Efficiency Class	A
Grease-filtering Efficiency Class	B
Total Power Consumption	300 W
Average Annual Energy Consumption (kWh/Year)	58.6 kWh
Voltage	220 - 240 V
Frequency	50 Hz

Dimensions & Weight

Height	102.5 cm
Width	89.8 cm
Depth	50.5 cm
Weight	17.3 kg
Packaged Height	63 cm
Packaged Width	96.5 cm
Packaged Depth	43 cm
Packaged Weight	21 kg
