ProSmart™ Inverter Compressor

High efficiency, high durability, low noise

Don't pay lots of money for electricity bills just for a refrigerator that does the job. You can open the door as many times as you like, ProSmart™ Inverter Compressor technology will adapt and create fewer temperature variations, provide faster cooling with less energy, and allow your food to stay fresh for much longer. The compressor's design provides more durability while being 4 times quieter.

Vacation Mode

Extra energy saving

Get your fridge in the holiday spirit when you leave for vacation. Vacation Mode saves energy by shutting down the cooler section but keeping the freezer running. Frozen food will we preserved while you save on energy bills.

CoolRoom

Keeps meat, fish and dairy products fresher for longer

Meat, fish and dairy products need low temperatures to stay fresh. With the CoolRoom, these products will stay just above freezing to maintain optimal moisture. This way, the food will remain fresh and maintain its flavor twice as long.

LED Illumination®

Even and efficient illumination

LED light covers the whole of the fridge, so you can find everything easily with less stress and energy. LED light on the ceiling of the fridge and LED strips on the side walls illuminate every shelf separately and provide full lighting on every part of the unit.
