## Halogen Illumination

Clear view of whats happening inside

Want to see how your cooking is going but don't want to open the door and lose the heat inside? Halogen Illumination helps you see all your oven's cavity, so you can keep an eye on your culinary creations with the door firmly shut.

## Durable Door

Sturdy door for carrying heavy dishes & cookware

Hot, heavy dishes and pots can be difficult to get out of the oven. Durable Door supports loads as heavy as 22.5 kg. That's 20% more than standard oven doors so you can rest your piping hot pot on the open oven door while you take a breather.

## SteamShine® Cleaning

Dissolve grease and stains

Forget about scrubbing and scraping grease and burnt-on food from your oven. With Beko SteamShine® Cleaning, your oven does the hard work for you. Simply pour some water into the tray, and as the water evaporates, it softens food leftovers in your oven, making it easier to clean.
