High Efficiency Gas Burner

Faster & more efficient cooking with special burner design

Don't let a busy day cost you a healthy meal. Now you can cook every meal faster and more efficiently on the hob. High Efficiency Gas Burners use less gas and cook more quickly than standard burners. So even when you're short on time, you can put your favourite meals on the table fast.

Gas Safety

Automatic gas cut-off

It's easy for a flame to go out when you're not around, unleashing dangerous gas into the house. The Gas Safety feature will detect when a burner flame is extinguished by an over-boiling pot or a gust of wind, and shut off the gas supply. No leaks, no worries.

SoftClose

Smooth & quiet door closing

No one wants to hear the jarring sound of an oven door slamming, but it can be difficult to keep it open when your hands are full. Special hinges on SoftClose oven doors make sure the door closes smoothly and quietly. So, you can worry less about noise and more about getting that dish on the table!

90 CM GAS OVEN

WITH 4 GAS AND 1 WOK BURNERS

- Central Zone4 kW
- Burner Plate ColourStainless Steel
- Main Cavity Oven TypeFan-assisted Gas
- PlugAvailable
