High-Efficiency Gas Burner

High-Efficiency Gas Burners

Faster and more efficient cooking with special burner design

Don't let a busy day cost you a healthy meal. Now you can cook every meal faster and more efficiently on the hob. High Efficiency Gas Burners use less gas and cook more quickly than standard burners. So even when you're short on time, you can put your favourite meals on the table fast.

High Power Wok Burner

Maximising cooking power

If you like stir-fry at home, you need a high performing hob. With the Beko High Power Wok Burner you get an extremely intense flame at a hot 5Kw. This allows heat to be more evenly distributed across the bottom of the wok. So, faster noodles with improved cooking performance.

Gas Safety

Automatic gas cut-off

It's easy for a flame to go out when you're not around, unleashing dangerous gas into the house. The Gas Safety feature will detect when a burner flame is extinguished by an over-boiling pot or a gust of wind, and shut off the gas supply. No leaks, no worries.

Cast Iron Pan Support

No slip ups

Cast iron pan supports enhance the stylish and professional look of your hob, while also providing maximum stability. So, you can use pots and pans of any size without the risk of tilting or sliding.

60 CM GAS HOB

WITH 4 STANDARD BURNERS

Key Features
