ProSmart™ Inverter Motor

High efficiency, high durability, low noise levels

Don't stress about your energy bill or give yourself a headache every time you wash your clothes. Thanks to its brushless motor design, ProSmart™ offers superior energy efficiency, lower sound levels and higher durability – all in a single machine, so you get the most from your machine without disturbing your monthly budget or peace of mind.

IRONfinish™

Ironing technology inside, ready to wear* clothes outside!

Ironing your clothes everyday can be tiring. Beko's Iron-Finish Dryers take care of the hassle for you, getting your clothes completely dry and ready to wear. It even works the same as a regular iron, infusing water and steam into your clothing for the ideal time at the ideal temperature, so fabrics come out smooth and ready to wear, just as if you'd ironed them! Let your dryer do your ironing for you so you can get on with the more important things in life!

*Ready to wear results from independent testing obtained for casual shirts with 100% cotton, 100% polyester, 100% viscose and 56% cotton-44% polyester blend in the iron finish programme. Irons up to six shirts in one cycle.

EcoGentle

Perfect drying, no colour bleeding

You used to dress up in all colors but your wardrobe has turned pale pastels. What happened? Oh, the tumble dryer happened. Now there is EcoGentle technology, which preserves the colour of clothes thanks to its innovative drying technology. Standard condenser drying works in conjunction with an air conditioning system to treat clothes gentler and make your dryer more energy efficient.

AquaWave

Wave-like drum action for gentler treatment

Washing might take its toll on your clothes. So, here is AquaWave system's curved door glass and specially designed paddles that move the laundry in a wave-like action inside the drum, treating clothes gentler and improving the washing performance. Next time someone compliments your clothes and you reply, 'What, this old thing?' you might be telling the truth.
